We are delighted with both the progress that our children make at our school and again, our progress measures are very strong. Also this year, our pupils have reached very high levels of attainment, particularly at the greater depth standard. This underlines not only the enormous potential that they have, but the quality of education that they receive at our school in preparing them for the future.

Multiplication Test – Year 4

Following a targeted programme of intervention and support using various platforms to engage children both at home and school including MathsFrame, TTR and weekly times table, quickfire quizzes our Yr 4 data was really strong. Out of a possible total score of 25
